## Lake Level - Fishing Rules Topics Of Council

Changes in commercial fishing regulations on Lake Okechobee and the proposed plan to raise the water level of the lake were the main topics at the regular monthly meeting of the Lake Okechobee Fish and Wildlife Advisory Council held at the Glades Restaurant in Clewiston on April 22.

Regulation changes, some of which were recommended by the Council to the Game and Fresh Water Fish Commission, were explained by Game Commission personnel. The regulation prohibiting wire castfish traps within 500 feet of aquatic vegetation and also the seven inch length limit on castfish were removed. Commercial fishermen will now be allowed to fish 1500 hooks during daylight hours and an unlimited number at night. Action was taken by the Commission on these changes at its official meeting in Ft. Myers on April 25th by emergency order.

The council reshaped the Corps of Engineers' proposed plan to raise the water level of

Lake Okechobee with Questions being answered by the Game Commission Biologists Bill Cole and Larry Shanks on the River Basin Study, based on their review of the proposed project plans.

The date and place of the next Advisory Council was left open, and Charles Corbin, representative from Belle Glade, asks that any one having comments or information pertinent to the Council contact him at 996-3844 or P. O. Box 38, Belle Glade.

and for that reason the bid was turned down, according to Langford.

Langford said that his firm won that first bid also and after some radical changes were made in the plans to lower the cost of the construction a second bid was asked for and accepted.

Adjacent to the bridge construction site work is progressing to widen and deepen the canal and build levees, according to Dale Morrison, president of Morrison Trucking Co., of Venice. The canal work is a separate bid let by the Corp. of Engineers.

Test piling can be seen marking the location of the bridge which will feature a modern perpendicular intersection and eliminate the present curve-intersection combination.

All that is holding up now, said Langford, is the prestressed material, which should be ready in a week to ten days. Construction is expected to be completed within 30 days after receiving the prestressed materials, he concluded.

Modern intersection to be built.

The counselors for the trip were Mrs. Frances Nelson, Mrs. Letha Rice, Miss Jan Bottoms, and Miss Linda Edwards.

The House party program opened on Friday night with a guest missionary speaker and featured entertainment by "The Majority" from Haverrill Baptist Church in West Palm Beach. Saturday morning each group attended mission conferences led by various home and foreign missionaries sponsored by the Southern Baptist Convention. Saturday afternoon was free time for swimming and recreation.

## Church Movie

At 8 p. m. next Sunday evening the sound movie "The Hangman" will be shown in the sanctuary of the Lake Harbor 4-H Church Methodist Church. This is an inspiring movie, with a different approach. The public is cordially invited to attend.

Miss Beth Livingston and Miss Cathy Remondino visited the past weekend with Beth's parents, Mr. and Mrs. J. H. Livingston and family at Holiday Inn in Hills.

## Troop 601 Camping Trip Encounters Damp Weekend

The weekend of April 27 and 28th will be remembered by the troop for some time. It was the first time in two years that the troops encountered rain. A hard hitting electrical storm with winds gusting up to 45 mph enveloped Big Cypress Saturday afternoon from 3:40 p. m. until 4:15 p. m. dropping over an inch of water and small hail stones. In the big ball game the Gator Patrol came from behind in the last inning to drop the Panther Patrol in a hard fought game.

In observance of Governor Kitz's ban on fire, the troop made no fires but relied on pre-cooked foods. This hampered advancement so far as the troop for some time. It agreed that with the woods so dry it was worth missing out on this phase of scout craft. One misplaced spark could destroy thousands of acres of timber and brushland leaving multitudes of wild creatures without shelter or food and killing many in the fire itself.

Advancement, swimming, fishing, ball games and hikes made up the weekend.

Church services were conducted by Weyman Bussey and Tony Martinez Sunday morning. Bible passages were read to show the close harmony of Scouting and God, and to emphasize the 12th part of the Scout Law "A Scout is Reverent."

## Henry J. Laniers Honored Sunday

Mr. and Mrs. Henry J. Lanier, former residents, now living in Fort Myers were honored Sunday, May 5th at the home of their daughter and son-in-law, Mr. and Mrs. Elzie L. Prevatt.

Mr. Lanier was 75 years old April 30 and a joint birthday dinner and Mother's Day celebration were held.

Out of town guests attending were Mr. and Mrs. S. N. Lanier, Fort Myers, Mrs. M. H. Grace, Jr., and son, of Miami, Mr. and Mrs. Tommy Lanier, Jupiter, Mr. and Mrs. Jennings Lookhart, Jr., Fort Lauderdale, Mr. and Mrs. J. C. Mosley of West Palm Beach, Mr. and Mrs. Ernest Stanford and family of Fort Myers, and Mrs. C. T. Ascue of West Palm Beach.

This was the first time in approximately 30 years that all the children of Mr. and Mrs. Lanier were together at one time. About 35 relatives and friends attended.

## Lake Harbor School

Future ballerinas and Olympia winners were predicted last week during the Lake Harbor Elementary School May Day Festival.

Opening the gala event was the Maypole Dance with fourteen participants gracefully, colorfully, and musically wrapping and unwrapping the Maypole. The breaking of a single streamer did not daunt the performers.

Following this were many events for which a vertical dichotomy of the entire school had been previously arranged into opposing teams of "blues" and "red-greens". The blast for the first afternoon was dignified by such names as soft ball, relay races, sack race, broad jump, and tug-of-war. In the last event there was so much "power" that the "tug" broke eight times, resulting in the "power" on each side deterring the earth! Each event was manned or "womaned" by a teacher. At the conclusion of the first afternoon the red-greens were leading with a score of 420 1/2 while the blues registered 392 1/2 on the scoreboard.

That evening was Open House for the parents. The cafeteria was resplendent with May flowers—Easter lilies, amaryllis, Queen Anne's Lace, and roses. Mrs. Alphonso Harrell, our librarian, graciously pointed, assisted by six students.

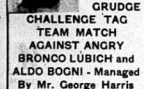

Second day, the fun was continued with volleyball, soft ball, races, dodge ball, and a kick ball, at the end of which the Red-Greens were victorious with a score of 5321, and the Blues 4739. All the winners were awarded a small pop-sicle, and the losers half a pop-sicle.

**Sugar Real**

J. L. Engineering Co., Jacksonville, La., has announced the development of two combine harvesters capable of cutting and loading up to 60 bushels of sugar cane per hour. Working cooperatively with Flor growers, the firm contemplates development programs in Florida conditions.

One of the units is a tri-mounted unit, termed the Harvester, and is reported cut and load two rows of cane simultaneously at the rate 60 tons per hour.
